## PARENT CHILD EXCURSIONS

For parents of children of all ages with challenging temperaments or developmental differences, these interactive sessions deal with four of the most common and difficult issues facing parents today: adolescence, sexuality, anxiety, and social success.

We will focus on a different topic each night. Dr. Shapiro will present some background concepts and specific strategies. Then the group will discuss individualized approaches to implementation; real-life challenges, real-life solutions.

**Two locations:** The Auburn School in Silver Spring and St. Andrew's Episcopal School in Potomac
